ETHICAL RAW MATERIALS POLICY

As a leading supplier of parts produced from engineered high performance metals and materials, NWI Defense LLC, is also focused on social responsibility, personal safety and environmental protection. Our management works with our suppliers to make certain we are sourcing material which has not been originated in the Democratic Republic of the Congo (DRC) or a neighboring nation.

It is NWI Defense's policy to conduct business exclusively with organizations which certify and perform their due diligence to ensure that raw materials are not originated in the DRC or "adjoining countries" (Zambia, Angola, Congo, Central African Republic, Sudan, Uganda, Rwanda, Burundi and Tanzania).

Our policy is aligned with the industry goal of preventing raw material sales from directly or indirectly financing or benefiting the armed groups of militants in either the Democratic Republic of the Congo (DRC) or an adjoining country as listed above.
